

SUCCESS STORY

EDF

Business Intelligence
Solution Integration

EDF calls on Sopra to implement the Business Intelligence solution of the Nuclear Department's Information System.

The EDF Group is an integrated electrical company, active in all electricity fields: generating, transport, distribution, commercialization and retail.

EDF is the main electricity company in France and is well positioned in three other major European markets (Germany, United Kingdom, Italy), making EDF one of the leading electrical companies in Europe, and a well-established gas company.

The EDF Group delivers electricity, gas and associated services to over 38 million customer accounts worldwide, of which almost 28 million are in France.

Background & Challenges

The EDF Engineering Production Department has started an overhaul programme to match its ambitions. Related work on the Information System mobilize several hundred people: EDF employees and Information Technology contractors.

Sopra Solution

One of the selected contractors, Sopra will be handling the implementation of the Business Intelligence component of the Nuclear Department's Information System.

The new system is based on Business Objects and ETL Informatica technologies.

Provisionally budgeted at several million Euros, the Business Intelligence component consists of setting up powerful decision-making assistance tools to prepare dashboards and analysis models used

by the EDF Engineering Production Department. These tools will also be used to support operational processes.

An initial pilot project will be set up in March 2010. This project will be finalized during the first quarter of 2011. The goal is to start rolling out the finalized solution as of 2011 to the 19 French nuclear power stations and the EDF support units.

Customer Benefits

- Facilitate the consolidation and availability of information
- Operate a common reference base, shared by the various concerned parties
- Encourage Best Practices, both in terms of IT and Business Processes

“ We are proud that we were chosen for the implementation of this component which positions Sopra at the heart of the EDF's Nuclear Information System. Winning this contract confirms Sopra's position in France as a long-standing and major provider of BI solutions. My team of experienced consultants and specialists is definitely looking forward to a challenge that will be passionate and motivating for us all, and that daily drives us forward. ”

SYLVIE ROBERT,
Sopra Project Management
